

Choose the WTC Milan complex for your events: corporate events, conferences, congresses, presentations, meetings, gala dinners, workshops, trade fairs and exhibitions.

Expo Milan 2015 (May 1 – October 31) is approaching and the World Trade Center of Milan is planning a rich calendar of events that will animate the city during the Universal Exposition. The World Trade Center Milan's headquarters are located in the Frigoriferi Milanesi complex. Close to the city centre and easy to reach, the Frigoriferi Milanesi is a striking former industrial complex from the late 1800s that has recently been refurbished and which also includes the beautiful **Palazzo del Ghiaccio** Liberty style building, and the restaurant **La Cucina dei Frigoriferi Milanesi** managed by the chef Marco Tronconi.

The spaces are available in different sizes and suitable for hosting the widest possible range of events, from small meetings, to corporate conventions. A professional team can oversee every phase of the organisation, from conception to execution, and provide specific advice on design, fit-out, logistics and communication. WTC staff can also provide the organization of B2B meetings on specific topics and international workshops. In addition, a network of selected suppliers will be available to offer the best catering, reception, interpreting, audio, video and lighting services, as well as support with bureaucratic and administrative procedures for events opened to the public.
