Taiwan Trade Center Milano visited WTC Milano

Milan, October 11, 2013 - The World Trade Center Milano delegates met Ms. Emilia Shih (Director) and Ms. Anna De Giorgi (Project Manager) of the **Taiwan Trade Center Milano (TAITRA)**.

The meeting took place at the WTC Milano where the TAITRA delegates visited the multi-purpose spaces of the suggestive architectural complex, recently refurbished, including the restoration and conservation laboratories, the vaults and the other art facilities, and the Palazzo del Ghiaccio.

WTC Milan aims to develop and upgrade commercial activities, links and cooperation agreements with foreign countries and organisations. For this reason, the visit of the Taiwan Trade Center Milano delegates was an important occasion to share experiences and exchange ideas for future business projects.
